What is this product?

Type
This product is a fund of Nordea Specialised Investment Fund, SICAV-FIS, an investment company with variable share capital (SICAV) with multiple funds and governed by Luxembourg law of 13 February 2007.

Term
The fund is established for an unlimited duration.
The Board of Directors may compulsorily redeem or merge all the shares of the fund or share class. Circumstances under which such decision would occur are available in the fund's prospectus accessible via www.nordea.lu.

Objectives
Investment Objective The investment objective of the fund is to obtain superior returns and to achieve capital growth over the medium and long-term by investing in private equity. The allocation of assets shall provide a broad diversification and follow the principle of risk spreading.
Investment Policy The fund's assets will be invested mainly in private equity by investing (either directly or indirectly, including through co- investment vehicles) (i) in private equity funds including through fund of funds, (ii) in listed private equity investment vehicles and (iii) in private equity companies. Further information regarding private equity funds, private equity fund of funds and listed private equity investment vehicles is available in the fund's prospectus accessible via www.nordea.lu.
Investment Restrictions The fund may not make any commitment to a single private equity fund in excess of 20% of its net assets at the time of commitment. The fund may not make any investment in a single listed private equity investment vehicle in excess of 20% of its net assets at the time of investment. The fund may not make any investment in a single private equity company in excess of 10% of its net assets at the time of commitment. Further information on investment restrictions is available in the fund's prospectus and accessible via www.nordea.lu.
Benchmark The fund does not measure its performance against a benchmark.
Responsible Investment The fund is promoting environmental and/or social characteristics as per Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR). Further information is available in the fund's prospectus and on www.nordea.lu.
Redemption and Dealing: Please see below under "How long should I hold it and can I take my money out early?"
Distribution policy: This share class is not distributing dividends. Income from investments is reinvested.
Base Currency: The fund is denominated in EUR. Investments in this share class settle in SEK. EUR/SEK fluctuations may lead the performance in SEK of the share class to significantly deviate from the fund performance in EUR.

Intended retail investor
The fund is intended for well-informed investors as defined in the Luxembourg law of 13 February 2007 on Specialised Investment Funds with knowledge and/or experience of these types of products and that accept and understand that the value of the fund is directly linked to the value of underlying investments, will fluctuate over time and that the invested amount can be lost entirely. The fund is not suitable for well-informed investors that are unable to sustain long-term investment. Recommended Holding period: 10 years. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile.

Practical Information
Depositary: The fund depositary is State Street Bank International GmbH, acting through its Luxembourg Branch.
Further information: This Key Information Document is prepared for a share class. Assets and liabilities of each fund of Nordea Specialised Investment Fund, SICAV-FIS are segregated, meaning that your investment in this sub-fund is only impacted by profits and losses in this fund. Other share classes are available for this fund.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 10 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this fund as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the Fund's capacity to pay you.
Be aware of currency risk. In some circumstances you will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
More information on risks the fund is exposed to is available in the fund's prospectus accessible via www.nordea.lu.
Other risks materially relevant to the PRIIP not included in the summary risk indicator:
Liquidity, Over- commitment, Funds of funds, Private equity investments.
This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 10 years Example Investment: SEK 100 000				
Scenarios		If you exit after 1 year	If you exit after 5 years	If you exit after 10 years

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
The stress scenario shows what you might get back in extreme market circumstances.
Unfavourable scenario: This type of scenario occurred for an investment between 2022 - 2025.
Moderate scenario: This type of scenario occurred for an investment between 2011 - 2021.
Favourable scenario: This type of scenario occurred for an investment between 2012 - 2022.

What happens if Nordea Investment Funds S.A. is unable to pay out?

In the event of our insolvency, the fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the insolvency of the depositary, or someone acting on its behalf, the fund may suffer a financial loss, which will not be covered by any investor compensation or a guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: - In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
SEK 100 000 is invested.

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Total costs	SEK 3 431	SEK 17 155	SEK 34 311
Annual cost impact (*)	3.6%	4.0% each year	4.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 16.9 % before costs and 12.9 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% may be charged to the investor in favour of the AIFM, the fund and/or the respective distributor(s) and/or the person selling you the product.	Up to SEK 3 000

How long should I hold it and can I take money out early?

Recommended holding period: 10 years

This product is designed for longer term investments; you should be prepared to stay invested for at least 10 years. You may not redeem your shares within 3 years from the first valuation date on which the subscription was processed. After the lock-up period, eligible requests for net redemptions may be limited per calendar quarter to 5% of the fund's shares in issue at the end of the preceding calendar quarter. The Board of Directors or the AIFM may decide at their discretion to not accept redemptions in the sub-fund for a period of up to 12 months, if justified in the interest of shareholders in view of the liquidity of the portfolio.

Eligible redemptions shall be processed on the valuation day of the month following a minimum of 3 months' written notice period.

The price for the valuation day reflecting the actual value of the fund is calculated on the basis of assets valuations as available on the 19th of each month or on any such previous business day (if the 19th is not a business day in Luxembourg). Payment of redemptions proceeds shall be made in principle no later than 20 business days following the relevant valuation day.

More information regarding the redemption and valuation processes is available in the fund's prospectus and accessible via www.nordea.lu. The Management Company may apply liquidity management tools ("LMTs") that could affect your ability to redeem your investment, the timing of your redemption, or the amount you pay for subscription or receive for redemption. These tools may include suspension of subscriptions, repurchases and redemptions, redemption gate, swing pricing and redemption in kind. The selection of applicable tools, their conditions of use and maximum level are detailed in the fund's prospectus.
